Dear Francine & Joel:

Thank you very much for your performance of "Broadway Magic" on Wednesday, February 9, 2011. Francine you write a very good program. I found the historical references that you provided about the songs, or song writers, of actors were very interesting and gave the program a lot of depth. These details, along with your song presentation made the program particularly enjoyable. And, Joel, I am sure that you have heard it many times, but your piano playing is excellent.

The program was very nice and I heard many positive comments afterward.

Thank you so much for coming and presenting this very enjoyable program for us.

Sincerely,

Deborah Rosenblatt
